PROFESSIONAL SUMMARY

Detail-oriented Software Quality Assurance (QA) Tester with over 4 years of experience in various testing methodologies, including Functional, Automation, Performance, API, and Security Testing. Proven ability to understand client requirements, develop test cases, and collaborate effectively with cross-functional teams to ensure high-quality software delivery. Proficient in utilizing modern automation tools and frameworks, including Selenium and Playwright, Appium, Postman and Apache JMeter, to enhance testing efficiency.

PROFESSIONAL EXPERIENCE

- Cowris Technologies** 2025 - 2026
Quality Assurance Engineer
 - Requirement Analysis: Partnered with stakeholders to translate complex cross-border financial requirements into comprehensive test cases for the Borderless app.
 - Test Design & Management: Structured reusable test suites for internal products and external testing partners to ensure cross-team alignment.
 - Execution & Quality: Executed rigorous API testing, functional, regression, and exploratory tests on ledger sync and currency exchange modules, drastically reducing transaction errors.
 - Reporting & Leadership: Led QA timelines as Project Lead for critical payment initiatives, delivering daily risk metrics to stakeholders and streamlining regression cycles.
- Seamflex Consulting** 2025 - 2025
Quality Assurance Analyst
 - Client Customization: Analyzed diverse client requirements to build targeted test plans for both off-the-shelf and bespoke software products.
 - Cross-Platform Testing: Configured test environments and executed exhaustive functional/regression tests on custom web and mobile applications to ensure smooth product delivery.
 - Project Delivery: Acted as QA Project Lead for high-priority client initiatives, managing delivery timelines and providing daily progress transparency to stakeholders.
- Greenmouse Technologies** 2022 - 2025
QA Tester
 - Collaborate with clients to gather and analyze system requirements, ensuring comprehensive understanding for project success.
 - Develop and execute detailed test cases and environments for web and mobile applications.
 - Perform thorough testing and retesting of software products, identifying and documenting defects for resolution.
 - Facilitate daily status reports to stakeholders, ensuring transparency on project progress.
 - Manage project timelines and deliverables as a project lead on selected initiatives.

EDUCATION

- Akanu Ibiam Federal Polytechnic Unwana, Afikpo, Ebonyi State** 2018
Higher National Diploma in Computer Science
Upper Credit (3.48)

TECHNICAL SKILLS

- Test Automation Tools: Selenium & Playwright(Web), Appium(Mobile), Postman(API), Apache JMeter(load test)
- Programming Languages: Java, Node.js, Python, JavaScript, React, C++, Visual Basic.
- Test Management Tools: Jira, Asana, Azure, e.t.c
- Database Management: SQL/MySQL, PostgreSQL, Microsoft Access

PROJECT EXPERIENCE

- **Cowris Apps**

- CowrisPay: <https://pay.cowris.com/cowrispay>
- SendCowris: <https://send.cowris.com/>
- SendCowris Mobile: <https://play.google.com/store/apps/details?id=com.cowris> ,
